MARKETS CONTINUE QUIET

Deposits Show a Good Average, While There Is No Special Demand for Money.

Grain Quotations Unchanged, for the Reason that the Call Was Suspended Testerday in Honor of Abraham Lincoln.

MONEY AND STOCKS.

Clearing-House Showing for the Day-Clearings and Balances for Like Date in 1891. The banking business of Indianapolis is as uneventful as ever in its history. Merchants and manufacturers are doing a smooth and steady business, and there is no special demand for money, while deposits continue to average well. The clearings of the six associated banks yesterday amounted to \$486,540,38; balances, \$42,091.32. On the same day and date last year the clearings were \$555,167.42; balances, \$61,-

NEW YORK QUOTATIONS. At New York yesterday money on call was easy at 11/2 to 2 per cent., the last loan being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 34 @54 per cent. Sterling exchange was quiet but steady at \$4.5% for sixty-day bilis and \$4.88% for demand.

The total sales of stocks were 876,241 shares, including the following: Atchison, 13,980; Chicago Gas, 40,880; Delaware, Lackawanna & Western, 60,420; Delaware & Hudson, 13,010; Erie, 96,680; Louisville & Nashville, 30,255; North western, 4,110; North American, 8,330; New Jersey Central, 8,000; Northern Pacific preferred, 28,625; New England, 42,507; Reading, 286,710; Richmond & West Point, 41,760; St. Paul, 31,130; Union Pacific, 10,820.

At the Stock Exchange yesterday was another exceptionally heavy day, although there was no comparison to the amount of business done, or the excitement attendant on the trading. The culmination of the deal was followed by large realizations by the syndicates, and there was considerable pressure on the coal stocks from bear sources, the advocates of lower figures being specially anxious to retrieve some of their losses by the recent rise. Rumors were circulated, to this end, that legal proceedings would be taken to prevent the consummation of the arrangements made by the coal companies. The rumors, however, had no special effect, the impression being that such proceedings, if brought at all, would be merely for specu-lative purposes and the declines effected in the stocks of those roads were entirely the effect of the selling to realize by speculative buyers. The coal shares were still the most prominent group in the market, but their position was not so overshadowing as on Thursday, and other stocks than those which are supposed to be benefited by the combination were largely traded in at times. London was a large seller of St. Paul and some others but bought a little Erie. Chicago bough Chicago Gas, but let it off with the rest of the list in the late trading. The Richmond & West Point stocks were very prominent on the rumors that the reorganization committee to be issued in a short time would be very favorable. The bears made considerable capital out of the position of the foreign exchange market, pointing out that demand bills are now dangerously near the gold exporting point, and still tending up-

READING TOOK A DROP. The transactions in Reading were, of course, most striking, and the trading in the last hour was equal to anything seen on Thursday after the first hour, while it fell rapidly over 5 per cent. The early dealings in all the coalers were marked by great irregularity, and while Jersey Central role 3 per cent. and Lackawanna 4 the improvement was more than wiped out sing the day. A rally in Jersey Central in the last few minutes saved it from scoring a material loss for the day. New England followed the leaders very closely, but other stocks were traded in within narrow limits except Iowa Central preferred. which was the strong point of the day, closing only 1/2 per cent. below its best figures. In the early dealings after a strong opening, Reading fell away, while Jersey and Lackawanna advanced, the general list also showing great trregularity of movement without scoring any material changes. Jersey afterward gave way, but the strength in Chicago Gas prevented any stampede in the market for dropped suddenly and everything followed, the transactions at the time being extremely heavy. The market under this closed active and weak, notwithstanding the rally in a few shares in the last few minutes. The losses of note comprise only Reading, 41/2; New England, 21/2; Delaware & Hudson, 2, and Cordage, 1%.

Again there was little in the railroad furnished \$3,850,000 out of a total of \$4,927. 000, the proportion being even greater than on Thursday, when over \$6,000,000 were traded in. The bonds naturally followed the course of the stock and all were materially lower last evening, though retaining a liberal portion of their late gain. The firsts are 4 lower, at 75; the seconds 84, at 75; the thirds, 54, at 534, and the deferred incomes 23k, at 1712. The rest of the market was uninteresting from any point of view, and while maintaining a fine temper showed absolutely no feature of interest.

Government and State bonds were dull and steady. Closing quotations were: * Ex. dividend.

Bar Silver-At New York, 89% c per onnce; at London, 41 ad.

BUSINESS OF THE CLEARING-HOUSES. The following table, compiled by Bradstreet's, gives the clearing-house returns for the week ended Feb. 11, 1802, and the percentage of increase or decrease, as compared with the corresponding week last year:

LOWEST IT EVER REACHED

Silver Touches 41d at London, an Unprecedented Financial Incident.

During the Week Wheat Declined 12c on Sales of 46,000,000 Bushels, and Corn Has Fallen a Like Amount-Exports Light.

BUSINESS AT CRICAGO. Receipts in Wheat and Dressed Beef Four

Times Last Year's. NEW YORK, Feb. 12.-R. G. Dun & Co.'s weekly review of trade says: Silver and cotton have declined yet further, the latter to 7 3-16c, the lowest price for many years, and silver bullion to 41d at London, the lowest price ever recorded, though there followed confectioners' A, 44c; off A, 44@4%c; extra price ever recorded, though there followed C, 3%@4%c; good yellows, 34@3%c; fair a slight recovery to 414d. Cotton receipts and exports have both been much larger than a year ago, but the stocks on hand decrease but slowly, and are very large. Wheat has declined 14c on sales of 46,000,-000 bushels, the exports being seriously diminished, and corn has fallen 14c on sales of 15,000,000 bushels, the Western receipts being unusually large. Lard and hogs were somewhat stronger, and coffee advanced %c, but oil is 4c lower. For the first time in many months the exports of products from New York fall a little below those of the same week last year, but the exports from other ports continue very large. The production of pig-iron is about stationary. The stocks of charcoal iron are substantially unchanged, and unsold stocks of anthracite are a little smaller than a month ago, but stocks of coke iron are considerably larger. No change appears in the market for pigiron, and rails are in small demand at the fixed price. Bar-iron does not improve, and the demand for plates is smaller than was expected, while the collapse of the combinations in beams and barbed-wire has a somewhat depressing influence. Larger sales of copper are reported at 10.75 cents, and a fair distribution of tin, while lead is a trifle lower. Reports from cities indicate a general improvement in trade. At Boston trade is,

on the whole, satisfactory. At Philadel phia dry-goods trade is quite encouraging. and business in groceries generally satisfactory. Prospects at Baltimore are much brighter. Jobbing trade is active at Cincinnati, and especially in provisions; and at Cleveland business compares favorably on the whole, with that of last year, though reaction and a light demand appear in iron ore. At Chicago the volume of merchandisc sales is greater than a year ago, and diminished receipts appear in cured meats only, a fair increase in lard, cheese and butter, a third in flour, corn, cate, barley and hides; 50 per cent, in wool, while receipts of rice are double last year's, and wheat and dressed beef four times last year's. Trade at Milwaukee is good, though collections are retarded because farmers hold back their crops. At St. Paul prospects are brighter and at Minneapolis business has increased, as also at Kansas City. Trade is fair for the season at Omaha and Denver. At St. Louis it is also stronger, and there is much confidence as to the tuture, though the depression in cotton regions is still felt. Better accounts also come from the South. At Louisville trade has improved. At Nashville it is very fair; at Memphis light, but improving, and at Montgomery increasing. At New Orleans business in all lines is only fair, but there is slight improvement in cotton, and sugar is firm and active, with hight reciepts. Nearly all Southern points report an easier money market and more hopeful prospects. The business failures occurring throughout the country during the past seven days number 276, as compared with totals of 319 ast week; for the corresponding week of last year the figures were 297.

AT NEW YORK.

Ruling Prices in Produce at the Seaboard's Commercial Metropolis. NEW YORK, Feb. 12.-Flour-Receipts. 254,000 bags; exports, 30,000 brls. The market was quiet and steady. Sales, 20,250 brls. Corn-meal was dull.

Advice to Fruit-Growers.

3. Miller, in American Gardener. Some say it won't pay to thin out apples on a large scale; but if it pays on a small scale it will pay on a large one. I have seen orchards where the owner would have done well to employ active men at five dollars a day to thin out his apples. In one instance there was a large orchard of Jennettings so heavily loaded with fruit that they never attained a size fit for market, and brought their owner little or nothing, though, if properly thinned out, the fruit would have been worth fifty cents a bushel in the orchard. sesides this, his orchard was nearly rnined by limbs breaking from the exhausted vitality of the trees. This thinning out of fruit I have practiced and advocated for forty years, but I have not yet reached quite the right gauge when at it-that is, have not learned to take enough peaches off when the trees are full. The fruit of such varieties as Susquehanna, for instance, should not be nearer than six inches to each other. Healthy trees, in good soil, properly cut back at the right season, if the ground be well cultivated, will give fruit that always commands a big price, no matter how much the market is glutted with ordinary stock. The same holds good in regard to pears and apples. Grapes, as a rule, are allowed to bear three bunches where two, and I believe in

many instances one bunch alone, would be better. I can grow Concords to weigh a bring nearly double the price that the ordinary ones do, besides bearing better; and in this we will be well paid for our labor of clipping out the smaller bunches. Then there is much time and expense when we go to bagging them; and this we must do, as we have formidable enemies in the curculo and other insects. Near my vineyard is an apiary, of near a hundred beehives, full of industrious little yellowbanded workers that know what grape-juice is. I will not admit that a bee can ouncture the skin of an ordinary grape; but when the birds, wasps and yellowjackets begin, the bees follow and will soon wind up the crop of a small vineyard. Spraying I do not like. Others may do it,

When we have the fruit raised we must send only perfect fruit to market, put up in neat and clean packages, of uniform size all through, with the grower's name on the package. Then, and not until then, can we compete with the fruit-growers belittle points which go so far to attract pur-

A good food for ducks is scalded bran mixed with cut grass and cooked grain; plenty of oyster-shells and water placed in small troughs about the duck runs is neceseary at all times. Ducks lay best the first year; older than two years you need expect but very few eggs. Some keep them simply for feathers, after they become too old for laying. Feathers, when clean, command 30 cents per pound, often higher

A pretty bolster roll is made of fine linen hemstitched handkerchiefs, men's size. Three large ones make it, and are joined by an insertion of lace, whose pattern is prettily picked out in red wash silk. The gathered ends are first lace-trimmed, forming, when gathered, a frilled rosette.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever pro-duced, pleasing to the taste and ac-ceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. NEW YORK, M.Y.

GOLD MEDAL, PARIS, 1878.

W. BAKER & Co.'s from which the excess of oil has been removed,

Is Absolutely Pure and it is Soluble. No Chemicals are used in its preparation. It has

more than three times the strength of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, costing less than one cent a cup. It is delicious, nourishing, strengthening, EASILY DIGESTED, and admirably adapted for invalids as well as for persons in health.

Sold by Grocers everywhere. W. BAKER & CO., DORCHESTER, MASS.

PILES INSTANT RELIEF. Final cure in 10 days, and never returns. No purge, no salve, no suppository. Sufferers will learn of a simple remedy Free, by ad-iressing TUTTLE & CO., 78 Nassau St., N. Y. City.

GRATEFUL-COMFORTING.

BREAKFAST. "By a therough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with adelicately flavored beverage, which may save us many heavy doctors' bills. It is by the judicious use of such articles of dist that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hatdreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only inhalf-pound tine, by grocers, labeled thus: JAMES EPPS & CO. Homosopathic Chemis London, En gland.
